

Plantronics is a Cisco Technology Developer Partner

Cisco Technology Developer Partners provide complementary and compatible technologies that help enable operational excellence and unsurpassed compatibility with networks built using Cisco equipment.

Partners of the Cisco Technology Developer Program support standards and commit to interoperate with Cisco products, technology, and software.

Plantronics has completed and passed verification testing for several headsets and adapters under the Cisco Technology Developer Program.

Why should your customer purchase a Plantronics headset?

Today, communications – via traditional phones, mobiles or Internet telephony – are at the centre of virtually every business activity. Businesses and organisations need trusted partners and suppliers for their hardware solutions that support all their business activities.

Plantronics offers:

- An unmatched track record
- Proven acoustic excellence
- Exceptional product range
- Industry leading service and support.

As the worldwide market leader and partner of major corporations such as Cisco, we spend millions of dollars every year researching and developing sound solutions that anticipate and respond to all the business needs of your customers.

Why use a headset?

Recent research showed that overall productivity could be increased by up to 43%* simply by using a telephone headset, rather than a traditional telephone handset.

Most of all, headsets empower the individual user by providing five key advantages:

- **Hands free** Advantage: No more juggling with your phone handset – type and talk as well as collecting that important document from the printer – complete office freedom
- **Sound** Advantage: More clarity – you can hear better and be heard. It saves time and reduces stress

Dealer Stamp

- **Ergonomic** Advantage: No more cradling a handset between your shoulder and neck – you can be more comfortable and avoid strain, back and neck pain
- **Mobility** Advantage: No more being tied to your phone – you're free to move around as you talk and you will miss less calls and stop diversion to voicemail – improve customers satisfaction
- **Efficiency** Advantage: Be able to multi-task whilst managing your daily activities – your phone, mobile and PC all enable you to become more productive.

Complete peace of mind with industry leading warranties

All our call centre and office products come with an Industry leading 2 year warranty with the option, at the time of purchase, to extend to a third year warranty (corded call centre and office headsets, amplifiers and adapters only).

More information

With every Cisco phone **There is a wireless and corded Plantronics headset sales opportunity!**

This headset selection guide helps you determine the right headset for your CISCO telephony solution. Whether you are using a softphone or deskphone or need a wireless or corded headset, this guide will help you to select the right solution for your needs. First select the phone you are using and then determine the type of headset you want, wireless or corded. When you choose a corded headset please check the required connectors as well to make sure your headset can be connected.
